

## NORTH CORNER HAVEN

WHERE FARMING MEETS FAMILY

72

LANCASTER, SC, July 20, 2018—North Corner Haven is excited to offer pastured poultry as one of their new products starting in Summer 2018. The chicken will be available to members of the NCH Buying Club along with direct order.

“We are so proud and thrilled to extend pastured poultry to our customers. It has been a wonderful journey and we can’t wait to share,” says Tori Ostwinch, Market Gardener.

The Freedom Ranger chicken is a more flavorful, better foraging chicken allowing for the best quality in comparison to the standard Cornish Cross.

Raised from chick with a 100week lifespan, each day the chickens have access to sunshine and fresh grass where they can graze to ensure they are happy and healthy.

“North Corner Haven hopes to further our mission in providing the freshest food possible to our community,” says Ostwinch.

These birds were processed onsite in the most humane way possible and then packaged and frozen immediately for optimal freshness.
