About North Corner Haven

North Corner Haven is a regenerative farm and event venue operating on over 600 acres of land in the North Corner of Lancaster County. Actively farming about 100 acres of land, we focus on pastured pork and select beef production along with over 125 laying birds, a small herd of goats, apiary and small market garden. Designed using Permaculture methods, our goal is to increase food production and continue to work with the land to create an ecosystem that feeds our events business, clients and it's own health. Much of the food that is produced on the property is sold direct to consumers via our online shop, or sold to clients hosting events on the property. The venue is deeply integrated within the Farm incorporating two stocked ponds (over 15 acres) a Five Stand Shooting facility, walking trails and more. Several facilities support the Events Business including a state-of-the-art Event Barn, Farmhouse and surrounding orchards designed with gathering in mind.
